

Natural Fiber - Euro HP

INCUBATED pH = 5.4 - 6.2

Aggregate-free mix in which the large particle size of the peat moss provides aeration and porosity.

ADVANTAGES

- Premium select super coarse peat provides a physical environment similar to that offered by aggregates.
- Rapid and uniform plant development.
- Completely organic.
- Easy to use in any growing conditions.

USE

Potted plants, large containers, long-term crops.

CROPS

Vegetables, large container tropical plants, perennials.

INGREDIENTS

Premium selected super coarse grade peat moss, dolomitic and calcitic limestone, non-ionic wetting agent, standard fertilizer starter charge.
